# ABOUT US

**LabMaster** was established in 2014, specializing in providing textiles, footwear and other high-quality testing equipment, consumables supplies and related services.

We provides customers in Viet Nam, Cambodia, Indonesia, Philipines and other Southeast Asian countries.

The company is a partner of international brands such as AATCC, ASTM, JIS, SDC, Testfabrics, VeriVide, X-rite and Mullen.

We also provide professional after-sales service, including equipment repair and maintenance, parts quotation and calibration services, to ensure that customers receive comprehensive after-sales support.

# VISION & MISSION

## **VISION & MISSION**

**EXPERT & LEADING**

*the Textile and Footwear Lab Supply Market*

# WHY CHOOSE US

## **WHY CHOOSE US**

**MOTTO**

**“YOUR LAB - OUR CARE”**

*Be the best partner to take care for your Laboratory*

# PRODUCT OVERVIEW

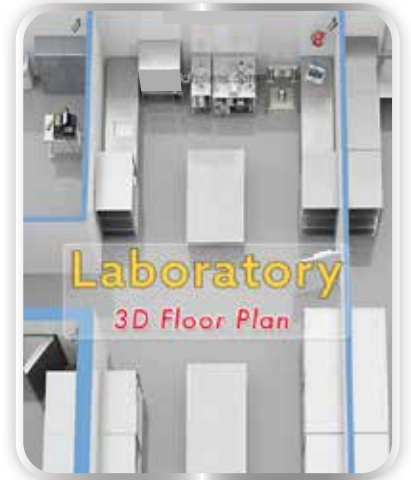

**LabChoice**

### PHYSICAL TESTING

- Tensile Strength Tester
- Bursting Strength Tester
- Tearing Strength Tester
- Stretch and Recovery Tester
- Martindale
- ICI Pilling and Snagging Tester
- Random Tumble Pilling Test
- Mace Snagging Tester
- Bean Bag Snagging Tester
- GSM Sample Cutter

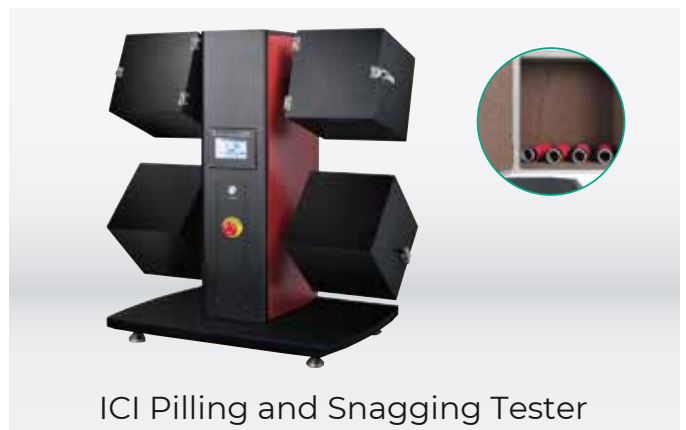

Tensile Strength Tester

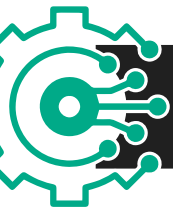

Random Tumble Pilling Tester

Martindale

ICI Pilling and Snagging Tester

### COLOR FASTNESS TESTING

- Lightfastness Tester
- Washing Colorfastness Tester
- Color Fastness to Rubbing Tester
- Ozone Chamber
- Gas Fume Chamber
- Oven
- Temperature and Humidity Chamber
- Perspirometer
- Scorch and Sublimation Tester

Light Fastness Tester

Oven

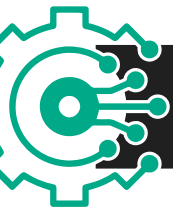

Perspirometer

Color Fastness To Wash Tester

Crocking Meter

### LAUNDERING

- AATCC/ISO/JIS Washing Machine
- AATCC/ISO/JIS Tumble Dryer
- Miele Washing Machine
- Shrinkage Template and Scale
- Steaming Cylinder
- Dimensional Stability Measurer

ISO Tumble Dryer

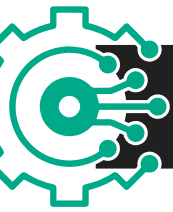

Wascator

AATCC Washer & Dryer

Dimensional Stability Measurer

### WATER RESISTENCE

- Hydrostatic Test Head
- Bundesmann Water Repellency Tester
- Rain Tester
- Spray Rating Tester

Hydrostatic Tester

Spray Rating Tester

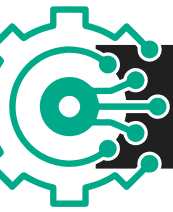

45° Flammability Tester

### FLAMMABILITY

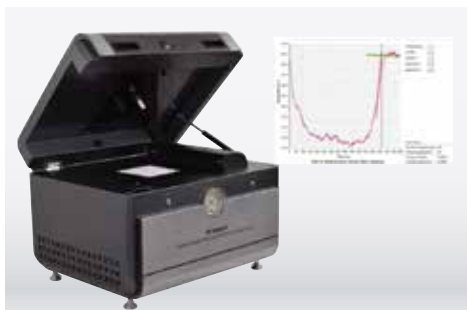

- 45° Flammability Tester
- Vertical Flammability Tester

### COMFORT TESTING

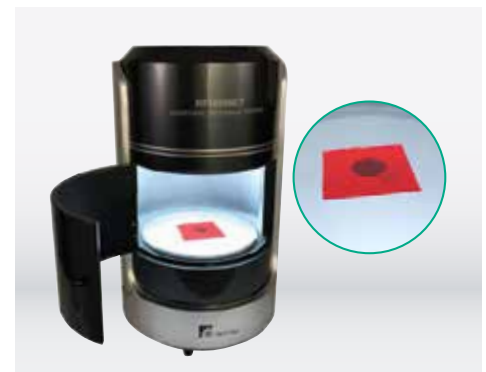

- Fabric Drape Tester
- Fabric Touch Tester
- Moisture Management Tester
- Moisture Diffusion Tester
- Dry Rate Tester
- Air Permeability Tester
- Fabric Stiffness Tester

Dry Rate Tester  
- Heated plate method

Air Permeability Tester

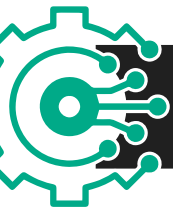

Moisture Diffusion Tester

Dry Rate Tester - Balance method

Fabric Touch Tester

### FOOTWEAR - LEATHER TESTING

- Flexing Tester
- Abrasion Tester
- Slip Resistance Tester
- IULTCS Rubbing Fastness Tester
- Heat Insulation Test Chamber
- Heel Impact Tester
- Tensile Strength Tester

DIN Abrasion Tester

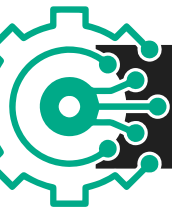

Bally Flexing Tester

Slip Resistance Tester

Veslic Rub Fastness Tester

### EQUIPMENT OF ASSESSMENT, LIGHTBOX & SPECTROPHOTOMETER

#### LIGHTBOX

Verivide Lightbox

Xrite Judge QC Lightbox

Xrite SPL QC Lightbox

Xrite Judge LED

Xrite Judge LED Plus

#### SPECTROPHOTOMETER

XriteBenchtop Spectrophotometer  
Ci7X00

Xrite Portable Spectrophotometer  
Ci6x

#### EQUIPMENT OF ASSESSMENT

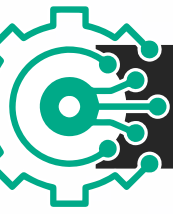

Pilling Assessment  
Viewer

AATCC Viewing Board

ASTM D3125 Pilling  
Assessment Viewer

## TESTING FABRICS

- **Multifiber test fabric:** No.1, No.10A, No.42, DW,...
- **Single Adjacent Fabrics:** Cotton, Polyester, Nylon, Wool, Silk
- **Ballast for** ISO, AATCC standards
- **Brand:** SDC, James Heal, Testfabrics, JSA,...

## TESTING DETERGENTS

### Crocking Test Materials

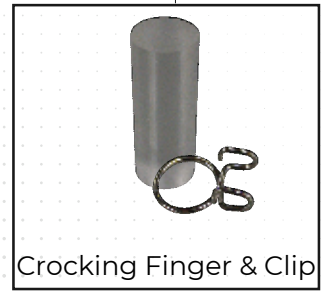

ISO Crocking Fabric

AATCC Crocking Fabric

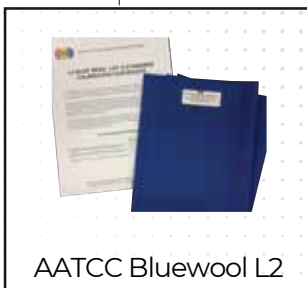

Crocking Verification Fabric

Crocking Finger & Clip

### LightFastness Test Materials

AATCC Bluewool L2

ISO Bluewool No.1-No.8

Mounting Cards

Humidity Control Fabric

### Martindale Test Materials

Woven & Non-Woven Felt

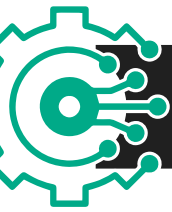

Polyetherurethane Foam

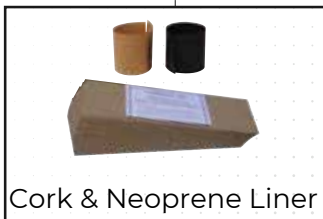

Wool Abradant

3M Trizact™ 268XA

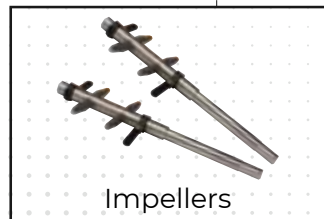

### Random Pilling Test Materials

Cork & Neoprene Liner

Grey Cotton Sliver

Impellers

Specimen Edge Glue

### Snagging & Pilling Test Materials

Moulded Polyurethane Pilling Tube

Felt-covered Polyurethane Tubes

Cork Liner

Verification Fabrics

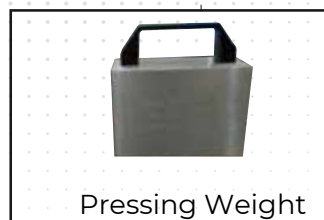

### Yellowing-Perspiration Test Materials

Control Fabrics & Test Paper

BHT Free 63 Micron Film

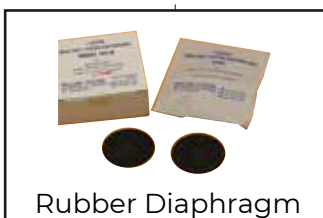

Pressing Weight

Glass, Steel & Acrylic plate

### Bursting Test Materials

Rubber Diaphragm

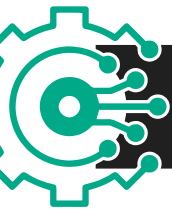

Standard Alluminum Foil

James Heal Rubber Diaphragm

Oil

### STANDARD PHOTOGRAPHS

## SPECIAL TESTING CONSUMABLES FOR JIS AND G/B STANDARDS

### MORE THAN JUST EQUIPMENT CALIBRATION

If it measures, it should be calibrated. If it's damaged or out of calibration, it should be retired or repaired. LABMASTER experienced technicians perform equipment calibration either on-site or in our accredited labs ensuring traceability to the relevant standards.

When necessary, our technicians can also perform an extensive range of **ADJUSTMENT** OR **REPAIR** work to bring the equipments back to **PASS** condition.

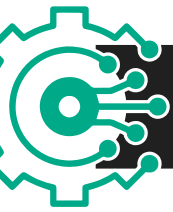

#### Accreditation and Compliance

LABMASTER calibration services keep you compliant with the formal system requirements – ISO-9001, ISO-14001 to special standards of top clothing, sportswear brands like NIKE, ADIDAS, PUMA,... and are approved by all auditing parties like Intertek, BV, SGS, TUV, MTS,...

Our calibration services operates under an ISO/IEC 17025 quality management system. The accreditation guarantees the technical competence of our people and the integrity of our systems.

### OUR ACCREDITED CALIBRATION SCOPE:

<p>Force</p> 	<p>Mass</p> 	<p>Temperature and Humidity</p> 
<p>Length</p> 	<p>Pressure</p> 	<p>Volume</p> 
<p>Photometry</p> 	<p>Speed</p> 	<p>Radiometry</p> 
<p>Time</p> 	<p>Chemical</p> 	

### LIST OF CALIBRATION EQUIPMENTS

#### • **Tensile Strength Tester**

- Push and Pull Tester
- Martindale
- ICI Pilling and Snagging Tester
- Random Tumble Pilling Tester
- Mace Snagging Tester
- Bean Bag Snagging Tester
- Bursting Strength Tester
- Stretch and Recovery Tester

#### • **Wascator**

- Labtex LBT M6 Washer & Dryer
- Vortex M6 Washer & Dryer
- Whirlpool Washer & Dryer
- Labowash & Labodry
- KMS Washer & Dryer
- Miele Washer and Dryer
- Electrolux Washer & Dryer
- ISO 6330 Dryer

#### • **Lightbox**

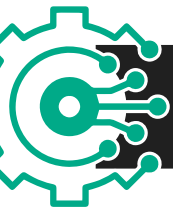

- Light Fastness Tester
- Washing Fastness Tester
- Crocking meter
- Ozone Chamber
- Gas Fume Chamber
- Perspirometer
- Scorch Tester
- Oven

#### • **Needle Detector**

- Balance
- Ruler
- Moisture Meter
- Thickness Gauge
- Weights
- pH meter
- Shaker
- Volumetric Glass Tool
- Timer

#### • **Flexing Tester**

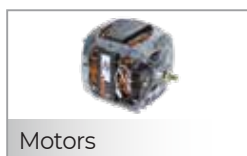

- Abrasion Tester
- Slip Resistance Tester
- IULTCS Veslic Abrasion Tester
- Heat Insulation Test Chamber
- Heel Impact Tester
- Lastometer
- Humidity Chamber

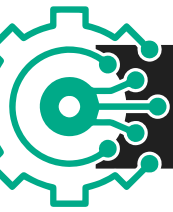

We understand that your laboratory need to be operated smoothly, when a tester have problem, the problem must be solved immediately.

To adapt to this requirement, Labmaster focuses on 3 key factors to enhance the maintenance and repairing service:

- Our great people: all have wide knowledge about testing, technology and service, more than 20 years in repairing service.
- Our Solution: A large database of solution for almost problem of testing machine so that we always have best solution for every problem.
- Our spare-part inventory: always have enough so customer do not need to wait for spare-part

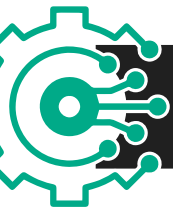

Our Engineers can help you establish your laboratories from the ground up.

We provide full-service Lab-Set-up from designing electric, water and HPAC system, choose the best equipments and options to installation, calibration and training, get your new laboratory running with validated equipments and fully trained personnel.

### Our Process for Setting Up Your Lab:

- Initial Consultation: We begin by understanding your specific needs, goals, and the scope of your laboratory project.
- Planning and Design: Our experts design a layout that optimizes space and efficiency, ensuring that every piece of equipment fits perfectly within your lab.
- Selection of Equipment: We help you select the top lab equipment that meets your needs, from high-throughput automated systems to specialized analytical instruments.
- Installation: Our certified technicians handle the complete installation of your laboratory equipment, ensuring everything is set up to operate under optimal conditions.
- Quality Assurance: We conduct thorough testing and quality assurance checks to ensure every component functions perfectly and meets regulatory standards.
